Lane (from Memphis)-Gandolfo conversation of 4/4/78 (marked Tape 1, side 2)

"Grace Stephens was the one witness who saw the assassin flee from the rooming house. (At 10+)

The meeting he had organized, just concluded, was the "first significant development in many, many years."

Said Ray's "positive" identification of "Raoul" from picture not of "Frenchy", who he says Rays says does look like Raoul but isn't. (McLaren shown him?)

Says FBI withdrew "security" only moments before Dr. King was killed, which he says was to "put down the welcome mat" the an assassin.

He criticizes it for not telling this to HSCA and to the people.

"Evidence that has recently come to us (sic) indicates that Ray was coerced into pleading guilty." side 2)
